SHOOTING AFFRAY

At Mayslick Yesterday Afternoon—Participants Were Colored People.

The little village of Mayslick, near this city, was awakened from its usual quietness yesterday afternoon about 3 o'clock when a shooting scrape was pulled off by a colored man and woman.

Anna White, wife of Taylor White, and Bill Wells were the actors in the little drama, with the lady playing the leading role.

It is said that the trouble started when the White woman ordered Wells out of her grocery store, and he refused to go, and rather than argue the matter with him, she used a little persunder in the form of a pistol. Result: Mr. Wells was shot in the right breast and probably fatally injured.

The injured man was removed to the home of his parents at Bucktown and was placed under the care of Dr. Vanney. This morning he was reported as having rested well last night.

The woman was arrested late yesterday afternoon by Sheriff John Clark and brought to this city and placed in jail.

ANOTHER HOWLING BLIZZARD IN THE WEST.

Chicago, March 5.—The blizzard that swept portions of the middle west and southwest last night reached Chicago early today. According to weather bureau officials, a heavy snowfall is expected, with the prospects of the big storm extending eastward to the Atlantic coast.

Reports from Kansas, Missouri, Nebraska, Oklahoma and Arkansas told of a snowfall from four to seventeen inches. Traffic throughout Kansas, Nebraska and western Missouri was reported to be seriously affected. In northern Nebraska and South Dakota a high wind prevailed, piling the snow in huge drifts, which, in some places, stopped railroad transportation.

CRANE & SHAFER'S ATTRACTIVE WINDOW.

Crane & Shafer, wallpaper and paint dealers in the Cox building, have a show window that is unique and attractive. The mechanical and decorative scheme is not yet finished, but when it is and the railroad and electric light systems are going, it will cause the public to look and stare with delight.

The window is an advertisement for the Berry Bros. varnishes.

Col. John McAniff, chief clerk in Crane & Shafer's, is the man who is fixing up the show window, and Berry Bros. will give a handsome prize to the jobber who has the most unique window.

Averitt, who will conduct the revival at the Aberdeen Baptist church, beginning next Monday night, March 8, will be assisted by his wife, who is a singer and personal worker of rare ability. Averitt was state evangelist in India for three years and is an able preacher.

(Vanceburg Sun.) Early last Friday morning "Uncle Tom" Burk heard something after his chickens and an investigation, with the assistance of a dog, he found that groundhogs had been robbing his hen roost. He dug out a 21-pound and a 24-pound groundhog.

THE LAST CHANCE---TODAY OR TOMORROW

The Corset Demonstration closes Saturday night. The corset is the foundation of the correct silhouette. Give it at least the same consideration you would give your shoes. These are invariably fitted. We want every woman of our clientele, no matter how inexpensive a corset she wears, to have the right one. Our chief model is the REDFERN—a corset as famous as its name and that is known all the world over. An expert corsetier is now in attendance at our store. Come in and let her talk corsets to you. You don't have to buy.

OUR ANNUAL EXHIBIT OF SPRING SILKS

It is safe to say Maysville has never had so charming and authentic an exhibit of Spring Silks as we present. While in New York our investigations were not confined to manufacturers' offices. Important retail stores were visited. Of course we make no quantity comparison, but we state emphatically our styles and quality, for price, are not excelled by city stores. We wish to emphasize we are not offering "bargain silks" in the sense of old patterns and unpopular weaves. We are presenting exactly what progressive women demand—the best weaves in a full range of stylish colors.

What you will find—

Faille \$1 to \$2. Taffeta \$1 to \$1.75. Pointille 29c. Shantung 50c to 70c. Charmeuse \$1 to \$1.50. Poplin 25c to \$1.50. Foulard 25c to 85c. Crepe 50c to \$2. Satin 25c to \$1.50. Tub Silks, 75c, \$1.

What you will NOT find is an undesirable weave or color.

TWELVE PER CENT OF BOYS SMOKE; FIFTEEN PER CENT WITHOUT RELIGION.

How many pupils attend Sunday school?
How many have moral training at home?
How many belong to a gang?
How many smoke cigarettes?
How many are on the streets after 9 o'clock?

The above were some of the questions which pupils of the public schools of Newport were asked to answer by Superintendent W. P. King, who compiled statistics in an effort to ascertain why some pupils were not efficient in their studies. The result of his investigation in the grades from the first to the eighth astonished school commissioners of Newport at their meeting. The statistics show that:

Twelve per cent of the boys in the sixth grade were cigarette smokers.

Fifteen per cent of all the pupils in the public schools are without religious training.

Seventy per cent attend churches and the other fifteen per cent have religious training, but do not attend churches.

Two per cent of the boys who failed in their studies admitted they were members of gangs.

The investigation covered the records of 2,034 pupils.

Ten per cent of the boys between the third and eighth grades admitted that some one in authority countenanced their being on the streets as late as 11 o'clock. The report further stated that three per cent of the children who failed are either orphans or their parents are divorced.

Superintendent King stated that his observations had led him to believe that athletics has a tendency to keep pupils in the schools through the higher grades.

1907 AND 1915.

In 1907 the Auditor of State was the Democratic candidate for Governor. The ticket was largely made up of rotationers in office. There was no party platform. Augustus E. Willson was elected Governor by a majority of 17,000.

This year the Auditor of State is a candidate for the Democratic nomination for Governor. The State Treasurer is a candidate for Auditor. The Superintendent of Public Instruction is a candidate for Secretary of State. The Clerk of the Court of Appeals is a candidate for Auditor. The Commissioner of Agriculture is a candidate for Governor. The party has no platform and, if the plans of the leaders do not miscarry, will have no platform until after the primaries are held, which is equivalent to no platform at all, conceding to the people a measure of intelligence.

In 1907 there was no division in the Republican party. There is no division in the Republican party this year.

It was the independent vote that elected Willson eight years ago. The number of Kentuckians who do their own thinking and vote as they think has not decreased since 1907.

History, they say, has a way of repeating itself. There may be no repetition of 1907 in 1915, but the signs point that way. If the Democratic leaders have not observed that fact it might pay them to cultivate observation.—Louisville Times.

WILD BEASTS AND THE WOOL INDUSTRY.

It is hard for us to believe that in any considerable part of the United States there are today enough wild animals to materially affect an industry, yet a wool trade journal points out that the presence of great numbers of wolves, wildcats, panthers and other carnivora is seriously reducing the wool output of Texas.

MAYBE HE WOULD BE THE WORST.

That Chicago widow who says she's had three crazy husbands ought to be enthusiastic for a sane fourth.—Pittsburg Gazette.

THE DURATION OF THE WAR.

Colonel Shumsky, Russian military expert, predicts that the allies will be victorious within six months. Lieutenant Colonel Roustam Bey, who evidently belongs to a different military club where stronger inspiration is served, thinks Shumsky is too considerate of the Teutonic allies. Why predict a six months' duration, when a prognosis of four or five months is just as simple?

Of course, nobody really knows whether the Triple Entente or the Teutonic allies will be victorious. And still less can the experts tell you with exactitude how long the war will last. But the layman is inclined to trust the duration to men like Lord Kitchener, to whom the remark, "I do not know when the war will end, but I do know when it will begin—the first of May," was attributed. A sincere opinion from the German chief of staff, who doubtless is as confident of German victory as Lord Kitchener is of British success, would probably be as indefinite and carry with it a similar implied prediction of great activity after the breaking up of the present winter.

Unless all trustworthy signs fail, we shall be discussing the state of the war when March, 1916, is with us.—Times-Star.

HANDS CONGRESSMAN FIELDS AN UPPER-CUT.

About ever so often some "statesman" has to introduce some fool bill in Congress which makes himself not only appear ridiculous, but casts reflections upon his constituency for sending him to Washington to make laws for the common herd. During the present session of Congress, which has been a most strenuous one, with many weighty problems confronting the Democratic administration, Congressman Fields, of our own district, the Ninth Kentucky, rushes into the limelight with a resolution that Congress vote a card of thanks to Frederick A. Cook for discovering the North Pole. If some of Congressman Fields' friends do not reach him soon, the Chronicle expects to read of his offering a bill for the government to give a medal to the man who can sell the most groceries, and do him the most good, if he has not already done so. We take off our hat to the Ninth Kentucky when it comes to producing "elm peelers" and sending them to Congress.—Augusta Chronicle.

HEROES OF COMMERCE.

The tramp, the freighter, the collier, the coaster—vessels of jibe and jeer in the maritime world—are not lying warped to wharves or swinging at anchor in neutral harbors, even though the seas are strewn with mines or treacherous with submarines. With a nonchalance in keeping with long traditions, their skippers hold the bridge and push their unromantic craft on to the port of destination as though no zone of hazard had been proclaimed. Their vessels are unarmed and ungunned, and their crews are plain old salts who know none of the arts of war. If disaster should come, it is all in the day's work; they expect no honors, they look for no rewards; with frank, natural and undramatic courage they do their duty and are content. Some poet should immortalize these heroes of commerce.—Philadelphia Ledger.

IN OLD KENTUCKY

Flees Palace.
(Callaway Times.)

Early Monday morning a passerby discovered a hole in the wall of the jail, which had been dug or picked on the front side, alongside the big iron door, and upon investigation by the jailers, found that Josh Holt, who had been confined there only a few hours on account of an alleged mixup in whisky business, had bid farewell to the little brick palace during the earlier hours of the morning.

TERRE HAUTE VOTE FRAUD TRIALS.

Indianapolis, Ind., March 6.—A special panel of 100 veniremen has been drawn and all other arrangements completed for the trial of the Terre Haute election fraud cases which is to begin in the Federal Court here Monday. Because of the importance of the case and the facts that are to be brought out in the evidence it is believed it will be necessary to examine many persons for jury service. The defendants are to be tried on Federal indictments charging them with conspiracy to corrupt the election of November 3, 1914, in Terre Haute.

L. GAY STRODE—HOW WOULD YOU LIKE TO BE THE ICE MAN.
(Lexington Leader.)

Under a cartoon of L. Gay Strode, president of the Middle States Ice Producers' Exchange, the ice pick prints the following facetious appreciation of the Lexington man: "The Producers' Exchange, the ice pick cess in securing such an excellent likeness of the popular president of the Middle States Ice Producers' Exchange. Our staff photographer snapped Mr. Strode just as he stepped in the railroad track preparatory to his advance (pedestrianly) on Indianapolis. President Strode is from Lexington, Ky. We mean to say, he is generally coming from Lexington, being seldom in that beautiful group of buildings. Unless by special appointment friends of Gay would never go to Lexington to see him. If it was to be a chance meeting, old acquaintances would look for Gay in Asheville, N. C., Cincinnati or Indianapolis; in fact, almost anywhere except Lexington. And yet, strange to say, the editor recalls very well while in Lexington recently, L. Gay seemed fairly well acquainted with its streets. As to the location of the best farms adjoining Lexington, his judgment was sure and unerring. Anyhow, we are for L. Gay for any darn thing he wants (except money). Somehow, we can't help thinking that he will be for us, with his concealed Kentucky dreadnought, when his eyes light on the picture which heads this sketch."

ROYAL ASCOT ABANDONED.

London, March 6.—The charge that the English people are not taking the war seriously seems to be refuted by their readiness to abandon the big annual fixtures that have contributed to their sport and pleasure. Weeks ago Oxford and Cambridge called off their annual boat race, which for generations has been the blue-ribbon event for all lovers of aquatic sports. Now comes the announcement that the Ascot race meeting will be abandoned. As it naturally will be inconvenient to hold yacht races in waters strewn with mines and threatened by German submarines, there will be no Cowes regatta this year. Thus the two great sporting fixtures that have marked the close of the summer season in England will be minus this year.

Royal Ascot has enjoyed the favor of kings and queens for 200 years. It was in the summer of 1711 that Queen Anne, while driving across Ascot heath, noticed its fitness for her favorite sport of horse racing. The Queen herself helped to organize the first meeting and was present at its opening. From that time its history has been a brilliant one.

SUNDAY TO VISIT PRINCETON.

Princeton, N. J., March 6.—Although the doors of Princeton University are still closed to "Billy" Sunday, the evangelist will speak here, to Princeton students, next Monday. Sunday refused one invitation from the students because it was not sanctioned by the university authorities, but decided to accept when the invitation was repeated. President Hibben has refused to let him use Alexander Hall, but the students have been promised the use of the historic First Presbyterian church.

STOMACH TROUBLES

Mr. Ragland Writes Interesting Letter on This Subject.

Madison Heights, Va.—Mr. Chas. A. Ragland, of this place, writes: "I have been taking Theodor's Black-Draught for indigestion, and other stomach troubles, also colds, and find it to be the very best medicine I have ever used."

After taking Black-Draught for a few days, I always feel like a new man. Nervousness, nausea, heartburn, pain in pit of stomach, and a feeling of fullness after eating, are sure symptoms of stomach trouble, and should be given the proper treatment, as your strength and health depend very largely upon your food and its digestion.

To get quick and permanent relief from these ailments, you should take a medicine of known curative merit.

Its 15 years of splendid success, in the treatment of just such troubles, proves the real merit of Theodor's Black-Draught. Safe, pleasant, gentle in action, and without bad after-effects, it is sure to benefit both young and old. For sale everywhere. Price 25c.

CHAMP CLARK IS 65.

Washington, March 6.—Champ Clark will be 65 years old tomorrow, and through his long service entitles him to be numbered among the veterans of the House. He is far from looking his age. Mr. Clark is a product of the Blue Grass state. On the occasion of his worldly debut his parents saddled him with the name of Beauchamp, but as soon as the future Speaker reached manhood to have a voice in his own affairs, he reduced the burden 50 per cent by dropping off half of his baptismal name and leaving it plain Champ. Mr. Clark started his career as an educator and for a period of nearly 12 months he filled the presidency of a West Virginia college. But in those days it was not customary to pick a pedagogue for President of the United States, so Mr. Clark, mindful of the parental teaching that it is within the gift of every American boy to become occupant of the White House, abandoned the halls of learning for the more promising field of law and politics.

MISSOURI BUILDING DEDICATED.

San Francisco, March 6.—Missouri put one over on the other states today by having an elaborate military display in connection with the dedication of the Missouri building at the Panama exposition. Major General Arthur Murray, commanding the Western Department, is a native of Pike county, Missouri, and in token of his regard for his native state, he turned out all the troops at the Presidio in a general review to add to the attractions of the Missouri building dedication. The program of exercises was in charge of the Missouri Society of California.

Among the exhibitors are the United States government, the Postoffice Department and the City of New York.

PIRATES OFF FOR TRAINING CAMP.

Pittsburg, Pa., March 6.—A big squad of players of the Pittsburg National League team, under the leadership of Manager Clarke, left today for Dawson Springs, Ky., where their preliminary training camp will be established. Players living in the south and west will proceed direct to Dawson Springs, and on March 17 the entire team will go to Hot Springs, Ark., where the final training will be done.

DALLAS HAS NEW BALL PARK.

Dallas, Texas, March 6.—Gardner park, the new home of the Dallas baseball club, was formally dedicated today with an exhibition contest between the home team and the New York Giants. The game was preceded by short addresses by Mayor Holland, President Gardner of the Dallas Club, Manager McGraw of New York and other celebrities.

POTATO BREAD NOW A FAD

Recipe Most Used Shows Simplicity of Making Same.

Chief ingredients: Cold boiled potato, whole wheat flour, whole rye flour. The potatoes must be thoroughly boiled, and equally thoroughly dried. Then they must be grated very fine. Combine the ingredients in the proportion of one-third grated potato, one-third rye flour, and one-third wheat flour.

Make a sponge with half of the wheat flour, and one-half ounce of yeast and enough water to make soft dough. Let sponge rise to double the volume and add one ounce of salt. Add grated cold potato and the remaining flour and lukewarm water. Make a stiff dough and let it rise to double the volume. Work it down and shape in loaf form. Let it rise to double the volume and bake in hot oven for one hour.

Loaves of bread weighing two pounds five ounces can be baked from this recipe at a cost of 5 cents each. They are both palatable and nourishing.—(The recipe by which Albert Stalle, German chef, makes potato bread.)

FOXES DEVASTATING QUAIL

Farmers Complain That They Are Now Raiding Flocks of Chickens—Law Protecting Them a Farce.

(Georgetown (D.) News-Democrat.) The law protecting foxes is reported to be causing much loss to farmers in many sections of the country. Foxes have become so plentiful that they become very bold, making raids upon poultry flocks without impunity. Those who have been watching the situation say that when an old fox builds his den near a farm house, with view of raising his family, it means that the farmer's poultry flock is to be almost wiped out, if he is not killed.

Another reason why there should not be a closed la against them is that they live off of the quail during the summer season. It is now generally known that quail are very scarce throughout this section.

STRAIGHTFORWARD TESTIMONY

Many Maysville Citizens Have Profited By It.

If you have backache, urinary troubles, days of dizziness, headaches or nervousness, strike at the seat of the trouble. These are often the symptoms of weak kidneys and there is grave danger in delay. Doan's Kidney Pills are especially prepared for kidney ailments — are endorsed by over 30,000 people. Your neighbors recommend this remedy—have proved its merit in many tests. Maysville readers should take fresh courage in the straightforward testimony of a Maysville citizen.

Henry Gallenstein, blacksmith, Poplar St., Maysville, Ky., says: "Doan's Kidney Pills are the best of kidney remedies. I have used different kinds and no other has ever equalled this one. When my kidneys were out of order and I had pain in my back, I heard of Doan's Kidney Pills and used them. They stopped the pains and my kidneys became strong. The cure has been permanent."

Mr. Gallenstein is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—If your kidneys bother you—don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mr. Gallenstein had—the remedy backed by home testimony. 50c all stores. HOUSEWORK FOR GIRLS

Prize Said To Keep Many of Them From a Good Home.

Foolish prize keeps many a girl from a comfortable home and a good living at domestic service. The profession of stenography is over crowded. At the present time hundreds of girl stenographers are out of work. Why don't some of these girls turn their attention to housework? They would be better off financially at the end of the year; they would have learned something, too, for there is always something to learn in a well regulated home, and they would have enjoyed a good room and wholesome food, something the stenographer on small wages doesn't always have, says Frances Frear in Leslie's. A lot of girls with a grammar school education, or even less, start out to fit themselves to be stenographers. With limited intellectual resources such a girl seldom gets above a weekly wage of from \$6 to \$8, and drifts from one position to another. The head of a stenographic bureau in New York City estimates that only about 5 per cent of such girls ever get anywhere in the profession. How much better off the \$8-a-week stenographer would be as a waitress in a nice home at \$5 a week.

A housemaid saves in car fare, lunches and foolish expenditures for clothes, so that, at the end of the month she finds that most of the month's wages have been saved. A girl coming from a home where the housework is hard and done without any system, naturally looks upon such work as the worst sort of drudgery. Both she and her parents imagine that to be a stenographer is "to get in the world."

We have seen how greatly they are deceived in this. They should learn, too, that domestic service in a home that has all the modern appointments, and where the work is apportioned and carefully mapped out, is by no means a life of drudgery. Girls must be taught also that there is nothing degrading about domestic service. All the necessary work of life is dignified, if done in a dignified way.

REV. E. G. B. MANN IS CONDUCTING A GREAT REVIVAL AT CATLETTSBURG.

(Lexington Leader.)

Dr. E. G. B. Mann, the widely-known Methodist minister of this city, is engaged in a great revival at Catlettsburg, which is stirring that little city from center to circumference, according to the Ashland Daily Independent, which has the following account of the progress of the meeting:

"The greatest religious awakening Catlettsburg has known for years is manifested in the revival meetings now in progress at the First M. E. church, South. Sunday there were large crowds at all three services and a great interest manifested. Last night the auditorium was filled long before the time for service and the Sunday school room was thrown open. Half an hour before the time for meeting standing room was at a premium and the service began."

"Dr. Mann's subject was 'The Judgment,' and he held the closest attention of his large audience, many of them standing from beginning to end. At the close, when the altar call was made, there were nine persons called forward and knelt at the altar of prayer. They were all happily converted. Among the number was a father and son, the mother having been converted in the morning service. There have been 13 conversions to date, exclusive of those at the young people's services on Saturday evening. The church is alive as it has not been for a long time and prayer meetings are being held in different sections of the city every day. Every morning at 10 o'clock there is a men's meeting held at some one of the prominent business houses of the city. These meetings are largely attended by men. Dr. Mann is a speaker of wide experience and always has a helpful message."

HAZARD CASE MAY BE POSTPONED

Lafayette, Ind., March 6.—The suit instituted by Mahol Rogers against seven former girl students at Purdue University is on the docket for trial here Monday. Miss Rogers is seeking to recover damages as a result of a hazing to which she was subjected by her former fellow students, and which she alleges was a shock to her anatomy as well as to her feelings. Owing to the serious illness of one of the seven defendants it may be necessary to postpone the trial when the case is called Monday, according to statements made by counsel today.

LATEST WAR BULLETINS

Will Not Shool Constantinople.
London, March 5.—Constantinople will not be shelled. The old Turks have sent word to England that once the allied fleet enters it way through the Dardanelles they will flee to Asia, leaving Constantinople undefended, to save Islam's capital from destruction. This statement was made today by a high official of the British government. For the present, at least, he insisted that his name not be used.

End Next Fall.

"One might think from the stability of all the appointments that the British had no expectation except for a long war, yet the universal opinion is that the fall will see victory and the end."—Frederick Palmer, at British headquarters in France.

Russian Fleet Busy.

London, March 5.—Intense interest was aroused today in a dispatch stating that the Russian Black sea fleet is steaming to attack the fortifications of the Bosphorus. One dispatch from Bucharest states that the fleet already has passed Burgas, Bulgaria, 76 miles north of Adrianople.

Looks Good For Allies.

It can be said that from the British point of view the situation today, wherever fighting is going on, is taken as favorable to the allies. The South African rebellion has been crushed; the Turkish invasion of Egypt seems to have been abandoned; the reports from the eastern battle front are favorable; no adverse news regarding the operations against the Dardanelles yet has been received and the blockade on foodstuffs into Germany is about to be enforced.

German Forces Reduced.

The German contingent in the Carpathians has been reduced to three army corps, according to report in London, which leaves the Austro-Hun-

garians to bear the brunt of the fighting.

Two German Submarines Lost.
London, March 5.—Two German submarines have been sunk in British waters, according to an official announcement given out in London today.

News of the Churches

Baptist Church.—The following are the subjects for today: "The Service of Joy" at 3 o'clock, and "The Blood of Christ" at 7:30 o'clock. Special music at both hours. Children practice at 4 p. m. Sunday—Dr. Jones will lecture on "The Child of Bread" at 10 a. m., to the entire Sunday school. A full attendance is expected. The following subjects will be used: "Sin's Punishment" at 10:45 a. m.; "Eternity, Where?" at 3 p. m. (for men and women), and "God's One Plan of Salvation" at 7:30 p. m. He has arranged several quartette, duet, solo and special chorus pieces. The entire public is invited to enjoy these services. Plan to attend as many of these services as possible. The sermon will not begin until 8 o'clock, so many can attend after their own services are over. B. Y. P. U. meets at 6:15.

The younger members of the church are especially requested to hear this discourse. Christian Endeavor meets at 6 p. m., Amy Baugh, leader. The public is invited to enjoy all of these services.

100,000 FORDS

have been sold and delivered since August 1, 1914. An order for 40,000 cars for immediate delivery has been received from one of the foreign governments. The British government is negotiating for the purchase of 200,000 Fords for immediate delivery. Although we had an order in for a carload to be shipped last month, they are so far behind with shipments that we have no idea when we will receive our allotment. We will fill orders in the order in which they are received. If you want a Ford car for delivery before May 1, don't wait 2 day. ORDER NOW.
